PROFESSIONAL SUMMARY

I enjoy asking the right questions before building the right solutions. Through AI product projects, UX design, and internships at Rebel Foods and Food Monk Consultants, I've developed experience in customer discovery, user research, wireframing, stakeholder collaboration, competitive analysis, and translating user insights into clear product requirements. Currently pursuing an MBA in Technology Management at the Institute of Product Leadership, I'm excited to build AI-powered SaaS products that solve meaningful customer problems and deliver measurable business value.

ACADEMIC PROJECTS

Notion India – Career Growth OS Strategy (SaaS Growth Case Study) Jun 2026

- Analyzed a simulated SaaS activation funnel across 5 AARRR stages, evaluating 6+ onboarding hypotheses to identify activation bottlenecks and prioritize high-impact growth opportunities.
- Prioritized 8+ product initiatives using a Value vs. Effort matrix, translating growth insights into an experiment-ready onboarding experience with defined success metrics, guardrail KPIs, and an A/B testing roadmap.

PM Toolkit: Product Analytics • AARRR Framework • Growth Strategy • Experiment Design • Value vs. Effort Prioritization • Product Metrics

IHCL (Taj Hotels) – Digital Transformation Strategy May 2026

- Evaluated IHCL's digital ecosystem through customer journey mapping across 8+ guest touchpoints, competitive benchmarking, and digital maturity assessment, identifying opportunities to improve guest engagement across booking, loyalty, CRM, and post-stay experiences.
- Developed a digital transformation strategy centered on a Unified Customer Intelligence Platform, defining AI-powered product initiatives including an AI Butler, personalized guest recommendations, intelligent loyalty experiences, and a phased implementation roadmap supported by service blueprints.

PM Toolkit: Product Strategy • Digital Transformation • Customer Journey Mapping • Digital Maturity Assessment • Service Blueprinting • Competitive Benchmarking • AI Product Strategy • Personalization Strategy • Product Roadmapping

KalaVansh – AI-Powered Cultural Discovery Platform [Live Prototype](#) Apr 2026

- Synthesized insights from secondary research, market analysis, and benchmarking of 8+ artisan, cultural, and e-commerce platforms, identifying gaps in artisan storytelling, product discovery, and customer engagement that informed the MVP strategy.
- Defined the AI product experience by designing 5+ user workflows featuring a conversational artisan assistant, personalized craft recommendations, QR-enabled storytelling, and an interactive prototype in Lovable to enhance cultural discovery and customer engagement.

PM Toolkit: Product Discovery • Secondary Research • Competitive Benchmarking • Product Strategy • Customer Journey Mapping • AI Product Design • Conversational UX • Feature Prioritization • Wireframing • Lovable

MeetCraft – AI Networking Platform (IPL Skillathon) [Live Prototype](#) Nov 2025

- Applied mixed-method product discovery through contextual inquiry at 3+ networking events, 10+ The Mom Test interviews, and analysis of 20+ survey responses, uncovering networking pain points that defined the MVP scope.
- Synthesized research into 3 user personas, 6 end-to-end customer journeys, and 12 prioritized product requirements, collaborating with cross-functional teammates to design AI-powered matchmaking workflows and deliver a functional MVP prototype.

PM Toolkit: Contextual Inquiry • The Mom Test • Customer Discovery • User Personas • Customer Journey Mapping • Feature Prioritization • MVP Definition • AI Product Design • Figma

PROFESSIONAL EXPERIENCE

Food Monk Consultants | Fermentation & Product Development Intern Feb 2025 – Jun 2025

- Developed and evaluated 6+ fermented beverage formulations, documenting product trials, ingredient iterations, and sensory observations to support new product development and validation.
- Collaborated with cross-functional teams to translate R&D findings into structured product documentation, strengthening experimentation, analytical thinking, and product validation processes.

PM Toolkit: Product Development • Experimentation • Product Validation • Cross-functional Collaboration • Documentation • Analytical Thinking

Rebel Foods | Quality Assurance Intern Jun 2024 – Aug 2024

- Analyzed customer complaints across 12 cloud kitchens, performing Root Cause Analysis (RCA) to identify recurring quality issues and recommend corrective actions with operations teams.
- Documented operational workflows and supported FSSAI/HACCP compliance initiatives, improving process standardization while strengthening cross-functional collaboration and customer-centric problem solving.

PM Toolkit: Root Cause Analysis (RCA) • Customer Experience • Process Optimization • Cross-functional Collaboration • FSSAI • HACCP

SKILLS

Product Management	Product Discovery • Customer Discovery • Product Strategy • Requirement Gathering • PRD Writing • User Stories • Feature Prioritization • MVP Definition
Research & UX	User Research • Customer Journey Mapping • Persona Development • Competitive Analysis • Market Research • Wireframing (Figma, Balsamiq)
Growth & Analytics	Product Analytics • KPI Definition • Data-Driven Decision Making • Activation & Retention Strategy
AI & Design Tools	ChatGPT • Claude • Gemini • Lovable • Canva • Figma • Balsamiq
Documentation & Collaboration	Product Documentation • Release Notes • Cross-functional Collaboration

EDUCATION

MBA in Technology Management | Institute of Product Leadership (IPL), Bengaluru 2025 – 2027 (Pursuing)

B.Tech Bioengineering (Food & Biochemical Engg.) | D Y Patil International University Graduated 2025

CERTIFICATIONS (IPL)

Product Management Fundamentals • UX Design • Go-to-Market Strategy • Innovation Frameworks • Value Proposition Design • Product Marketing

ACHIEVEMENTS & LEADERSHIP

- Skillathon Winner at IPL for Value Proposition & Digital Business Models | Project: MeetCraft, an AI-powered networking platform with smart, data-driven matchmaking | Apr 2026
- Shortlisted, CAUSE 2026 – CMR University's Global Design Thinking & Open Innovation Challenge (aligned with UN SDGs) | Project: KalaVansh, empowering artisans through tech & storytelling | Apr 2026
- Volunteer | DoRBit Foundation (NGO) | 2025
- Member, Registration Team | National Conference on Current Trends, Scope and Opportunities in Food and Bioprocessing Sector | 2024
- Vice OC, Function Execution Department | D Y Patil Model United Nations Conference | 2023
